Powerlogy - Power up your day

POWERLOGY

We are a brand of high-quality, healthy food, which has been on the market since 2015. We believe that food is more than just calories.

Our aim is to help the human body and mind utilize an individual's full potential. Thereby we strive to develop our own unique recipes using nutritional science combined with natural ingredients, high nutritional value and great taste. More than half of our products are organic, and we use alternative, natural sweeteners as much as possible. Additionally, we pride ourselves with having won the Great Taste Award 13 times.

In our range, you will find products for tasty and healthy breakfasts, healthy snacks, quality healthy fats, superfoods as well as functional products such as collagens and proteins.

Our target audience are people who live life to the fullest. Who search, every day, for ways to make the most of each moment life has to offer. They are curious, they educate themselves, they seek and try new things prompted by scientific discovery. Meanwhile, they also believe that progress comes from understanding nature, which offers the best sources of nutrition.

Powerlogy - Power up your day

POWERLOGY

SCIENCE BASED SUPREME NUTRITION

UPGRADED

We created the premium Powerlogy Upgraded line for the most demanding customers, those looking for the highest quality and maximum efficiency. Upgraded products are enriched with innovative ingredients such as MCT oil, prebiotic fiber, adaptogens and bioactive ingredients. We develop these formulae based on the latest scientific findings. We combine the effects of different ingredients to give you energy and support specific body functions - immunity, digestion, regeneration or physical and mental performance. We consult the functional benefits with an expert scientific board, with whom we work very closely. We recommend Upgraded products as a solution for people who want a reliable source of energy and nutrition for every day.

COLLAGEN

Collagen is the most abundant **structural protein** in the body. It is an essential building block of connective tissue, and exists in dozens of types, depending on the tissue, and its function. Collagen mainly consists of the non-essential amino acids **glycine**, **proline and hydroxyproline**. These amino acids are much less abundant in other protein sources.

Recent scientific studies point to the following benefits of collagen on the appearance and function of your body:

- Maintains normal appearance, hydration and elasticity of the skin
- Maintains healthy appearance of hair and nails
- Reduces visible signs of ageing, helps to regenerate tissues
- Supports functionality of digestion system and aids natural sleep

A collagen supplement is a fine way to augment the amount of collagen in your daily diet. Powerlogy collagens are of the highest quality, with natural ingredients and high bioavailability

NATURAL COLLAGEN

Natural Hydrolysed Collagen made of grass-fed European cows. Lab-tested. No sweeteners or added flavours. Lactose-free. Halal certified.

Key features of Powerlogy Natural Collagen:

From grass-fed European cows. TThe animals spend the majority of the year grazing on pasture, consuming a diet rich in grass and other crops abundant in vitamins, minerals, and essential nutrients. This natural diet results in a superior omega-3 to omega-6 ratio and increased antioxidant content. Additionally, they are not administered hormones or antibiotics, ensuring that the final product maintains the highest possible quality.

Collagen hydrolysate for good digestibility. Enzymatic hydrolization. Collagen is a large, complex protein that can be slow to digest and absorb. Collagen hydrolysate addresses this by enzymatically breaking down the protein into smaller, more digestible pieces, allowing for faster absorption of amino acids. It also dissolves easily in liquids, enhancing its usability. Enzymatic hydrolysis uses minimal heat, preserving the integrity of protein fragments and ensuring the amino acids remain undamaged.

Lab-tested and additive-free Natural Collagen has been tested in an independent laboratory for purity and composition. It contains nothing but collagen hydrolysate. No additives, flavours or preservatives. As a result, Pure Collagen has a neutral taste that you often don t even notice in a drink or dish

Ingredients: 100% Hydrolysed bovine collagen peptide made from grass-fed cows.

UPGRADED COLLAGEN ORANGE /300g

A multi-collagen complex with extra glycine, vitamin C from Acerola berries, and a natural orange flavor.

The base consists of 4 clinically proven sources of collagen: grass-fed beef, fish, egg and marine. Therefore, you get **5 types of collagen** I, II, III, V and X. Each type of collagen contains slightly different amino acids. With their combination, you take the profile of amino acids that your body also uses to make collagen.

Recent scientific studies show that adding anti-inflammatory glycine and vitamin C can **increase collagen production by up to 153%.** The same combination even has the potential to accelerate wound healing and help prevent osteoarthritis.

With this knowledge, we have enhanced the formula with an extra dose of L-glycine and vitamin C from acerola. With this, Powerlogy Upgraded Collagen is as good as it gets, created to support the regeneration of your tendons, joints, bones, muscles, skin, hair and nails.

Ingredients:

Hydrolyzed grass-fed bovine collagen, L-glycine, hydrolyzed fish collagen (Naticol®), natural orange flavour, fish collagen type II, acerola juice concentrate powder, hydrolyzed eggshell membrane (Ovomet®), malic acid.

PROTEIN

Proteins are **essential macromolecules** that play a crucial role in nearly every biological process. They are the building blocks of life, responsible for the structure, function, and regulation of the body's cells, tissues, and organs. From enzymes and antibodies to hormones and muscle fibers, proteins perform a vast range of functions that are vital for growth, repair, and overall health. In the realm of products, proteins are highly valued for their **nutritional and functional benefits**. Whether sourced from animals, plants, or specialized production methods, they are a key ingredient in food, health supplements, sports nutrition, and various industrial applications.

The Powerlogy protein portfolio brings you premium products with 100% natural ingredients a unique formulations. These proteins provide maximum effect and **do not cause digestive problems, abdominal pain or even glycemic issues.** They are designed for all active people who are looking for an extra source of energy and recovery for their physical as well as mental performance.

ORGANIC WHEY PROTEIN
/650g

100% organic whey protein in grass fed quality.

Organic whey protein is produced from the milk of **grass-fed cows.** It contains a complex amino acid profile and is highly digestible. A daily dose contains up to **24 g of protein** and thanks to modern ultrafiltration technology, the product has a high protein absorption. With this protein you can easily support muscle recovery. Enjoy a creamy taste while maintaining a pure composition. Free of gluten, soy, sugar and artificial sweeteners.

Functional benefits of Organic Whey Protein based on scientific evidence:

- Supports accelerated recovery and muscle growth
- Supports attention and brain nutrition thanks to a broad amino acid profile
- Measured higher blood levels of leucine compared to whey isolates
- Higher BCAA content compared to whey isolate
- Gentler on the stomach and better digestion if you're sensitive to whey protein

Ingredients:
100% organic grass-fed whey protein (80% protein concentrate) from certified organic farming.

ADDITIVES FREE | GLUTEN FREE | NO ADDED SUGAR | ALL ORGANIC | SOY FREE

UPGRADED WHEY PROTEIN

/300g

Hydrolysed protein made from organic whey with extra glutamine, creatine and magnezium.

Our upgraded whey protein is derived from the milk of **grass-fed cows** and enhanced with a balanced blend of **creatine, glutamine, and magnesium**. Creatine boosts exercise performance and may help prevent injuries, while glutamine is vital for maintaining immune system function and reducing fatigue. Magnesium, an essential mineral, supports over 300 enzymatic reactions in the body. To elevate the taste, we've added a **natural vanilla flavor**. The product is free from added sugar, artificial sweeteners, gluten, GMOs, and soy. Each serving delivers 15 grams of protein

Maximum product effectiveness is ensured by the following features:

- Synergy of creatine, glutamine and magnesium for better performance and recovery
- Combination of great taste and functional formula without gluten, artificial sweeteners or sugar
- Easy digestibility and fast absorption of animal protein,
- Natural solubility in hot and cold drinks, (6) Natural creamy taste with vanilla,
- Detailed laboratory tests to check the quality of ingredients, ochratoxins and aflatoxins.

Ingredients:

Organic whey protein, creatine monohydrate, L-glutamine, magnesium citrate malate, enzyme blend (alpha-amylase, protease, lactase, cellulase, lipase), natural vanilla flavor, stevia.

UPGRADED SPORT PROTEIN

/300g

Energetic beef protein with MCT fats and special polysaccharide Palatinose®.

The optimal protein for enhancing athletic performance with a **rich cocoa flavor**. It offers a broad amino acid profile through a premium blend of beef protein and high-quality collagen. Additionally, we've included MCT fats, which serve as **quick "fuel"** for energy production. The **Palatinose® polysaccharide**, ensures that the body receives sustained energy, while blood sugar levels rise gradually, compared to sucrose and maltose. This unique advantage ensures that the body receives energy in consistent, smaller doses for an extended period (up to 3-4 hours). It helps prevent hypoglycaemia while preserving both muscle and liver glycogen. This combination is favoured by professional cyclists and runners for continuous energy supply. The functionality is enhanced by **essential minerals** for athletes, magnesium and potassium. Finally, authentic cocoa, lightly sweetened with natural stevia, ensures a delightful taste.

Imagine this: you take a sip of Upgraded Sport Protein and two things happen. Your mind delights in the rich flavor, and within 30 minutes, you'll feel a surge of energy and the urge to get moving. Unlike the quick burnout often experienced with energy drinks, you'll be able to maintain lower-intensity activities, like endurance running, for several hours without needing a snack. And all of this without added sugar.

Ingredients:

Hydrobeef® bovine protein, Palatinose, lactose-free MCT fats, defatted cocoa powder, magnesium citrate malate, potassium gluconate, chocolate flavor, sweetener: steviol glycosides from stevia..

UPGRADED VEGAN PROTEIN
/300g

VEGAN

Certified vegan plant-based protein with MCT fats, fiber, and vanilla.

Highly innovative vegan protein with a unique blend of organic plant proteins to enhance recovery. The main components are proteins from yellow peas, rice, and raw hemp and is enriched with MCT fats for **sustainable energy** and a dose of **prebiotic fiber**. Enzymes from pineapple and papaya support smooth digestion. Natural vanilla extract provides a delightful flavor, without added sugar, artificial flavors, or preservatives. This premium plant-based protein with is processed using hydrolysis technology, allowing us to break down the proteins into a very fine powder, enhancing **taste, digestibility, and absorption**. Special enzyme extracts further support smooth digestion. The product delivers a **complete spectrum of essential amino acids** with a high DIAAS (Digestible Indispensable Amino Acid Score) of 113 and is naturally soluble in both cold and hot beverages.

Each serving contains up to 18g of protein. Powerlogy Upgraded Vegan Protein effectively addresses the challenge of protein deficiency in a plant-based diet.

Ingredients:

Organic blend of plant proteins (yellow pea, rice and hemp seed proteins), vegan protease complex [broad spectrum proteases, bromelain enzyme (from pineapple), papain enzyme (from papaya)], MCT oil microfragmented (medium chain triglycerides, acacia fiber), organic dried coconut nectar, organic maca root powder (gelatinized), organic vanilla extract, steviol glycosides (from the stevia plant), natural flavors (coconut, caramel).

BARS AND SNACKS

ON THE MOVE ALL DAY?

TIME FOR AN UPGRADE

COLLAGEN BARS

Treat yourself to a snack with easily digestible hydrolyzed collagen, without loads of sugar, gluten, or dairy, and get a **your daily dose of collagen in 1 bar** (**10g**).

Protein bars are a popular source of protein and energy, yet most products on the market fail to meet quality standards in terms of ingredients, taste or texture preventing them from delivering their full potential.

We offer **a new solution for a quick protein source**, especially collagen, in the form of a snack. We combine quality, functional ingredients with a great taste, and developed a recipe with MCT oil and a high fiber content. By adding only essential and safe food-grade moisture stabilizers, like sunflower lecithin and glycerol in minimal amounts we ensure the bar maintains its shape and freshness for weeks. All these ingredients create a reliable bar without stickiness or a powdery texture.

Our unique collagen bars serve as a functional yet tasty go-to when you need to **replenish energy** or curb hunger during a busy day - and will do so without artificial sweeteners.

UPGRADED COLLAGEN BAR

/50g

Bar with a daily dose of collagen, prebiotic fiber, coconut, and dark chocolate.

With the Upgraded Collagen Bar, the focus is on strong support for the **regeneration of cellular tissues,** and you are ensured a **functional dose of collagen** (10 g per bar). A premium bar with hydrolysed collagen, a **low sugar content** and a good portion of fibre (9 g in one bar), promoting proper digestion. Research confirms that a high intake of prebiotic fiber protects against obesity and **supports the microbiome.** Additionally, it ensures healthy satiety, **stable blood sugar** and helps with lowering cholesterol levels. The recipe is topped off with extra MCT oil, which acts as a **quick "fuel"** for energy. Enjoy a bounty of flavour thanks to the dark chocolate and fresh coconut topping. Free from gluten, dairy, palm oil and artificial sweeteners.

Ingredients:

Hydrolysed collagen peptides 20%, dark chocolate 20% (cocoa mass, sugar, fat-reduced cocoa powder, cocoa butter, emulsifiers: soya lecithin, polyglycerol polyricinoleate; Bourbon vanilla extract), chicory fibre, humectant: Glycerol; coconut powder 9.5%, grated coconut 9.3%, rice protein 5.8%, MCT fats (medium chain triglycerides), water, natural coconut flavour, antioxidant: tocopherol extract; emulsifier: sunflower lecithin; table salt, sweetener: stevia glycosides from stevia.

PROTEIN BARS

Treat yourself to a snack with extra dose of whey or plant protein in our healthy and tasty protein bars.

Protein bars are a popular source of protein and energy, yet most products on the market fail to meet quality standards in terms of ingredients, taste or texture preventing them from delivering their full potential.

We offer **a new solution for a quick protein and fibre source,** in the form of a tasty natural snack. The functional benefits are provided by whey or plant protein MCT oil, and a high fiber content. The excellent taste comes from natural ingredients, such as Fino de Aroma cocoa from Colombia, cashew butter, coconut, and bourbon vanilla. Our goal is more than just maximizing protein quantity, We want to to ensure healthy ingredients. That's why Powerlogy protein bar not only aid in recovery but also **supports a healthy feeling of fullness**, optimal blood sugar levels, and a quick energy source from MCT fats. All of this, in addition to a very low sugar content and **without burdening digestion**.

Our unique protein bars serve as a functional yet tasty go-to when you need to **replenish energy** or curb hunger during a busy day - and will do so without artificial sweeteners.

UPGRADED WHEY PROTEIN BAR /50g

A bar with whey protein, prebiotic fiber, coconut, and dark chocolate.

11 g (**22%**) **of pure whey protein**, **low sugar**, and a solid portion of **fiber** (**9 g**) in one protein bar. Research confirms that high intake of prebiotic fiber protects against obesity and **supports the microbiome.** It provides healthy satiety, **stabilizes blood sugar levels**, and helps lower cholesterol levels. The formula is completed with extra MCT oil, which acts as **quick fuel** for energy production. Enjoy a bounty flavor thanks to the dark chocolate coating and fresh coconut. Free from gluten, palm oil, and artificial sweeteners. We created this innovative low-sugar protein bar for demanding customers. For people who want to stay **energized** throughout the day without feeling hungry after just two hours. And who fully understand that every meal has the potential to be **quality nutrition.**

Ingredients:

Whey protein concentrate 24% (whey protein concentrate, emulsifier: lecithins), dark chocolate 20% (cocoa mass, sugar, reduced-fat cocoa powder, cocoa butter, emulsifiers: soy lecithin, polyglycerol polyricinoleate, Bourbon vanilla extract), chicory fiber, humectant: glycerol; coconut powder 8.7%, shredded coconut 8.5%, MCT fats (medium-chain triglycerides), water, natural coconut flavor, antioxidant: tocopherol extract; emulsifier: lecithins; table salt, sweetener: steviol glycosides from stevia.

Low sugar

Gluten-free breakfast granola with pistachios, coconut chips, and coconut syrup.

A delicious combination of gently roasted **gluten-free flakes,** shredded coconut, coconut chips, and pistachios. We achieved a **harmony of pure flavor** by selecting natural ingredients. The gluten-free oats are perfectly crispy thanks to gentle air roasting.This crunchy granola is sweetened with natural coconut syrup, which has a **glycemic index** (**35**) **that s 2x lower than regular syrups** (**65-70**)**.** It is free from gluten, dairy, palm oil, and artificial sweeteners. Enjoy the perfect balance of sweet flavor, easy digestion, and optimal blood sugar levels. We noticed a gap in the market for truly crunchy breakfast muesli with an optimal composition—**less sugar and more fiber.** That s why we created Powerlogy Pistachio Coconut Granola, which is also suitable for vegetarians and vegans. Its the perfect way to start the day, as the high fiber content supports a **sustained energy release** throughout the day.

Ingredients:

Gluten-free oats 50%, coconut 17%, coconut chips 10%, coconut syrup, pistachios 7%, coconut oil, salt.

SUPERFOODS

BLOATED?

TIME FOR AN UPGRADE

SUPERFOODS

Discover the power of superfoods and make them an essential part of your daily routine for **vibrant health and optimal performance.**

Superfoods are **nutrient-dense** foods that offer a wide array of health benefits, providing more than just basic nutrition. They are nature's most powerful foods, packed with **vitamins**, **minerals**, **antioxidants**, **fiber**, **protein**, **healthy fats** and other essential nutrients which combat oxidative stress, reduce inflammation, support heart health and thus help enhance well-being and support a healthy lifestyle. From nutrient-rich berries and leafy greens to exotic seeds and algae, these foods have been trusted for centuries to **nourish the body and mind.**

One of the greatest benefits of superfoods is their versatility. They can be easily incorporated into your daily routine—whether blended into smoothies, sprinkled on salads, or enjoyed as snacks. Superfoods are suitable for various dietary preferences, making them a go-to choice for vegans, vegetarians, and health enthusiasts alike.

Our superfood range is carefully selected and sourced. We create complex superfood blends from organic, non-GMO, and sustainably harvested ingredients to ensure that you're getting the highest quality **nutrients without harmful additives.** The product range is designed to meet specific health goals—whether it's boosting immunity, enhancing gut health, reducing oxidative stress or promoting healthy aging. With our selection of superfoods, you can take control of your nutrition and **fuel your body** with the best nature has to offer.

UPGRADED ORGANIC BERRIES
/250g

VEGAN

BIO superfood mix of 5 types of berries and prebiotic fiber.

Boost your intake of vitamins, minerals, and especially **antioxidants** with an innovative **blend of berry fruit** and prebiotic fiber. Research confirms that high fiber intake **supports the microbiome** and helps maintain **stable blood sugar levels.** Antioxidants in berry fruit, such as polyphenols, flavonoids, and resveratrol, have **anti-inflammatory** effects, support eye health, and help reduce the risk of cardiovascular diseases and cancer. The Upgraded Berries blend focuses on superfoods that **enhance antioxidant processes** in the body. Combined with BIO chicory fiber, it supports the microbiome, leading to **stronger immunity and optimal digestion.** Natural prebiotic fiber serves as nourishment for beneficial bacteria in the digestive tract and supports the length and quality of your life. Enjoy a healthy drink with an intense forest fruit flavor, made from **100% organic natural ingredients**, free from gluten, sugar, and artificial preservatives.

Ingredients:

BIO berry fruit powder (BIO wild blueberries, BIO goji berries, BIO raspberries, BIO blackcurrants, BIO strawberries), BIO chicory oligofructose (partially enzymatically hydrolyzed inulin), BIO chia seed powder, BIO flaxseed powder, BIO rosehip powder, BIO beet powder, gray sea salt, natural flavors.

UPGRADED ORGANIC GREENS /300g

BIO Superfood Mix of 7 Green Foods and Prebiotic Fiber

A tasty way to supply your body with **vitamins**, **minerals and enzymes** and kick-start your digestion first thing in the morning. We've created an innovative blend **of 7 potent green herbs** and prebiotic fiber from apples and chicory (up to 4.8g of fiber per serving). For our recipe, we selected locally sourced green foods like nettle, kale, broccoli, and green barley, and complemented them with highly functional superfoods such as chlorella, spirulina, and moringa.Research confirms that high fiber intake **supports the microbiome** and protects against obesity. It also helps with stable blood sugar levels and significant reductions in total and LDL cholesterol. We combine the effects of various ingredients to boost your energy and support specific body functions—immunity, digestion, recovery, as well as physical and mental performance. Organic quality, pure allergen-free ingredients, **high bioavailability** and a subtle **orange** aftertaste.

Ingredients:

BIO supergreens blend powder (BIO nettle leaf 11%, BIO green barley 11%, BIO spirulina 9%, BIO chlorella 8.5%, BIO moringa leaf 8%, BIO cabbage 3%, BIO broccoli 2%), BIO chicory oligofructose (partially enzymatically hydrolysed inulin) 35%, BIO apple fibre 10%, BIO acerola cherry powder (high in vitamin C) 2.5%, natural orange flavour.

UPGRADED ORGANIC CACAO
/300g

Raw BIO cocoa with medicinal mushrooms Chaga and Lion s Mane from Finland.

Our base is high-quality BIO cocoa powder from Peru. According to scientific studies, **Lion's Mane mushroom improves memory and supports brain cell growth.** Chaga, on the other hand, is a very potent antioxidant. Our innovative cocoa, enriched with these medicinal mushrooms, **supports brain function, heart health, and the microbiome**. It contains no added sugar, gluten, dairy, or artificial preservatives. Enjoy a creamy chocolate treat made from just three ingredients. Upgraded cocoa focuses on **stimulating the nervous system.** We've enhanced the natural energizing effect of theobromine in cocoa with medicinal mushrooms, Lion's Mane and Chaga, grown in Finland's polar regions. This combination provides a noticeable energy boost while maintaining a low caffeine content. Additionally, it supports **cardiovascular health and improves mood.** The delicious taste and theobromine's influence on dopamine release contribute to this effect.

Ingredients:

BIO supergreens blend powder (BIO nettle leaf 11%, BIO green barley 11%, BIO spirulina 9%, BIO chlorella 8.5%, BIO moringa leaf 8%, BIO cabbage 3%, BIO broccoli 2%), BIO chicory oligofructose (partially enzymatically hydrolysed inulin) 35%, BIO apple fibre 10%, BIO acerola cherry powder (high in vitamin C) 2.5%, natural orange flavour.

MCT OILS

BOOST YOUR PERFORMANCE

MENTAL &
PHYSICAL

MCT OILS

Experience the difference that clean, fast-absorbing energy can make in your daily life and unlock the benefits of this potent superfood.

MCT (Medium-Chain Triglycerides) oils are a powerful and efficient source of healthy fats that provide instant energy, support cognitive function, and promote overall well-being. Extracted primarily from coconut oil, MCTs are unique in their ability to be quickly absorbed and converted into fuel, making them a favorite among athletes, busy professionals, and anyone looking for a clean energy boost. MCTs are rapidly metabolized by the body, bypassing the typical digestion process and heading straight to the liver, where they are converted into ketones—an immediate and stable source of energy for both the brain and body. Unlike long-chain fats, which are stored in the body, MCTs are burned as fuel, making them ideal for those on ketogenic diets, intermittent fasting, or anyone looking to optimize energy levels and mental clarity.

MCT oil is incredibly versatile and can be seamlessly integrated into your daily routine, as it has no flavor or odor, and therfore blends effortlessly into both savory and sweet dishes.

Our MCT oils are carefully extracted from premium organic coconuts, ensuring high purity and maximum potency. We focus on delivering pure, non-GMO, and organicaly and sustainably sourced MCT oil, free from fillers, preservatives, and unnecessary additives. Each batch is rigorously tested for quality and consistency, so you get the best every time.

ORGANIC MCT OIL /500ml

VEGAN

BIO coconut MCT oil with C8 and C10 triglycerides.

Premium C8 MCT oil in BIO quality consists of a blend of 60% caprylic acid (C8) & 40% capric acid (C10), which effectively provides **quick energy** to both the brain and muscles. Our BIO coconut MCT oil features a high concentration of C8 caprylic acid, providing **7 times faster absorption** and effectiveness compared to regular coconut oil. This exceptional BIO quality oil **supports fat burning** directly without putting a strain on digestion, offering quick and stable energy for **optimal mental and physical performance.** This unique source of energy is quickly absorbed and converted into ketones, providing you with **long-lasting, stable energy** that sugar cannot offer. Incorporating Powerlogy MCT oil into your diet will boost your energy, **help manage body weight, and enhance your performance.** Packaged in glass to ensure premium quality, it is 100% coconut-derived and free from flavors, palm oil, gluten, sugar, and artificial preservatives.

ORGANIC C8 MCT OIL /500ml

VEGAN

Premium BIO C8 MCT oil composed solely of caprylic acid.

Premium C8 MCT oil in BIO quality **consists solely of caprylic acid** (**C8**), **which** effectively provides quick energy to both the brain and muscles. This special extract of **100% coconut origin**, free from chemical additives and artificial preservatives, offers a concentrated dose of pure C8 caprylic acid in exceptional organic quality. Medium-chain triglycerides (MCTs), with 8-12 carbon atoms, are considered one of the **most efficient sources of energy for both the brain and muscles.** Their metabolic pathway is very rapid, as they are converted directly into ketones in the liver **without burdening the gallbladder.** These ketones can then be utilized not only by muscles but also by the brain as an energy source. Current scientific knowledge indicates that ketones are a much cleaner and more efficient energy source compared to the popular glucose.

Ingredients:

Caprylic acid triglycerides from BIO coconut oil..

ORGANIC COFFEE & CACAO

Expect truly clean energy and a healthy boost from Powerlogy coffee without causing stomach irritation. Experience the rich, authentic taste of pure organic cacao, **packed with antioxidants and vital nutrients.**

Our organic coffee is crafted for those who value both flavor and wellness. Sourced from premium, organically grown beans, our coffee delivers a **smooth, rich taste** with every cup. Free from pesticides and harmful chemicals, it's designed to provide **clean energy and enhanced focus, without the jitters or crashes.** Thanks to our carefully selected processing and roasting method, we can fully break down unwanted acids while extracting the maximum amount of essential oils from the coffee beans. These oils hold the antioxidant, flavor, and stimulating richness of the coffee. We've enhanced our Upgraded Organic Power coffee with Lion's Mane and Chaga mushrooms to **provide powerful brain support.**

Our Peruvian organic Criollo cacao, classified as Fino de Aroma (only 4% of global production), is carefully sourced from the finest beans to ensure a **deep, luxurious flavor** while supporting overall health. Ideal for hot drinks, it's a guilt-free way to satisfy your chocolate cravings while benefiting from its natural energy, **mood-enhancing properties, and heart-healthy nutrients**.

ORGANIC COFFEE SINGLE FARM /250g, 900g

BIO whole bean coffee 100% Arabica, with notes of figs and chocolate.

Organic coffee beans 100% Arabica from El Salvador. The delicious roasted taste is accentuated by notes of figs and chocolate. The beans are slow roasted to medium grade with laboratory quality tests. The coffee is grown at 1400 m above sea level on a plantation called Andalusia. For many years, the plantation has been managed and maintained as an **organic plantation** without the use of chemicals and fertilizers. We embarked on researching the criteria for truly reliable whole bean coffee (100% Arabica) and took an alchemical approach to selecting and roasting the beans to get as close as possible to **unlocking the coffee's full potential.** Thanks to our selected processing method and gentle roasting, we can fully break down. unwanted acids while extracting the maximum essential oils from the coffee. These oils are **rich in antioxidants, flavor, and stimulating properties.**

As a result, you can expect truly clean energy and a **healthy boost** from this coffee, without irritating your stomach. The goal of Powerlogy Organic Coffee is to deliver a balanced, strong, and stable flavor. Neither unpleasantly bitter nor sour, but consistently high-quality.

SUPPLEMENTS & ENHANCERS

Dietary supplements offer a convenient and effective way to **bridge nutritional gaps**, **enhance daily performance**, and support overall well-being. Whether your goal is to **boost energy**, **improve immunity**, **enhance focus**, **or maintain balanced nutrition**, our carefully curated collection of dietary supplements covers a broad spectrum of health objectives:

- Brain Health & Focus: Sharpen your mental clarity and concentration with cognitive enhancers and nootropics designed for peak brain performance.
- Sleep & Relaxation: Achieve restful, rejuvenating sleep with natural supplements that promote relaxation and healthy sleep cycles.
- Digestive Health: Support a balanced gut with probiotics, enzymes, and fibers that aid digestion and improve nutrient absorption.

We prioritize your health by offering products made from premium ingredients, rigorously tested for potency, safety, and purity. Our supplements are free from unnecessary fillers, artificial additives, and harmful preservatives. You'll find only clean, responsibly sourced ingredients that align with your wellness goals. Our dietary supplements are developed with the latest nutritional science in mind. Each product is formulated to deliver targeted benefits., .

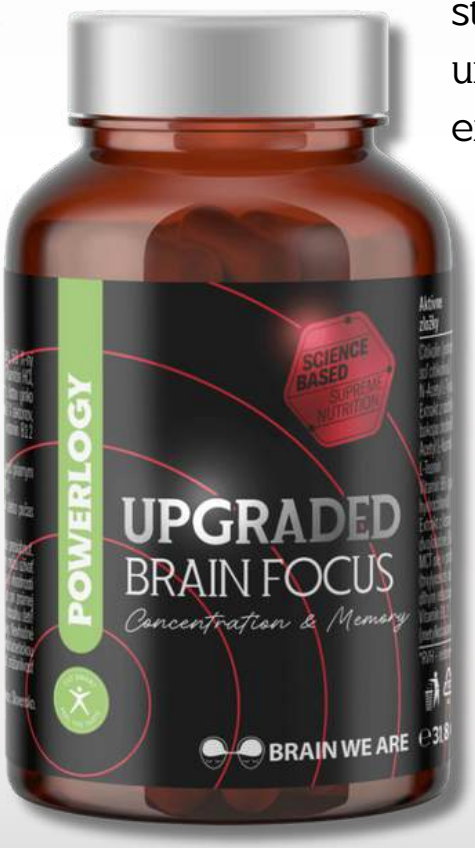
UPGRADED BRAIN FOCUS

/60 capsules

Complex Nootropic for Brain Nutrition, Concentration, and Memory Support.

Premium combination of **active nootropics** providing support for brain cell function and neurotransmitters. It contains functional doses of **CDP-choline, L-theanine,** extracts of Bacopa and Ginkgo Biloba, Acetyl-L-carnitine, and the methylated form of vitamin B12. According to scientific studies, these substances can directly contribute to memory support, improved attention, comprehensive learning processes, and **maintenance of cognitive functions** under stressful and challenging conditions. Our goal was to introduce a truly functional, comprehensive, and effective dietary supplement that delivers daily benefits. It primarily supports concentration and cognitive, analytical, and creative brain functions.

This supplement **offers support and provides comprehensive nutrition** and optimizes brain function, without the energetic cost often associated with many stimulants. Unlike many stimulants, it does not cause undesirable side effects such as anxiety, nervousness, or excessive hyperactivity.Vegan product, caffeine-free.



Ingredients:

Citicoline (disodium salt of citicoline), N-Acetyl L-Tyrosine, 50% extract of Bacopa monnieri (Bacopa monnieri), Acetyl L-Carnitine HCl, 98% L-Theanine, vitamin B6 (pyridoxine hydrochloride), Ginkgo biloba leaf extract standardized to 24% flavonoids and 6% lactones, MCT oil powder (medium-chain triglycerides), vitamin B12 (methylcobalamin), capsule shell: hydroxypropylmethylcellulose.
